Our Plan is working to make sure there is more greenspace, buildings that aren't so tall and limit basement development. We are keen to keep what is special about the area, and get everyone involved to make this a special part of London that we all love to live and work in. Your design needs to reflect this aspiration. Please find below the Terms & Conditions:

### **Knights Walk Housing Design Principles Exhibition**

Where? Pedlars Acre Hall, 1 Opal Street, Kennington, London SE11 4HZ

When? Wednesday, 1st June from 4:30pm - 7pm

What? Housing Design Principles Exhibition

The Council has developed Housing Design Principles for the new homes that will be built for a range of tenures. In building new homes, the Council will be taking a longterm view; homes that fit well into the neighbourhood and stand the test of time; they need to create a positive legacy for a future Lambeth; they

need to be high quality, low maintenance and low energy. And they need to help create and support resilient mixed neighbourhoods for everyone.

### Meet the Development Management Team

Following an extensive selection process, in which residents were able to meet the potential development management teams and took part in interviewing them, the Council has appointed Tibbalds Campbell Reith Joint Venture to develop the partial redevelopment proposals for Knight's Walk. You can meet the team at the exhibition and find out about the programme for developing the design and making a planning application. My company, make:good, will be leading on the resident and stakeholder engagement work as the project develops so I particularly look forward to meeting people and hearing first hand their questions, comments and concerns.
